Yesterday Chief Sargent of the Brotherhood of Firemen, Chairman Hoge of the engineers, Monaghan 'of the switchmen, and Murphy of the firemen, accompanied by E. T. Jeffrey, General Manager of the Illinois Central Railroad, called at the Burlington office and suggested a conference with the officials of the road.

officials of the road.

In the absence of President Perkins, the party was received by Vice Presiden J. C. Peasley, General Manager H. B. Stone, General Superintendent J. D. Besler, and Attorney Wirt Dexter. On behalf of the strikers, Chief Sargent reviewed the present condition of affairs and strongly urged upon the company the advisability of submitting the entire matter to arbitration. The men were anxious to go to work, he

mitting the entire matter to arbitration.
The men were anxious to go to work, he said, but they felt that their cause was a just one, and ought to receive the consideration of the officials of the road.

Mr. Stone declined emphatically to listen to such a proposition for a moment. The ranks of the firemen and engineers were substantially filled by men who were entirely satisfied with the rules and terms of the commons and therefore no question of the company, and therefore no question of could be obtained, particularly arbitration could be obtained, particularly
if it was expected to result in the return of
all the old engineers and firemen and the
dismissal of the men who had come to the
support of the company when the strikers

took matters in their own hands.

Mr. Sargent for the committee admitted that the company could not properly consider any proposition looking to the discharge of these men. Mr. Stone then urged the committee to have the strike declared off, promising to consider applications from the old men and to give as many of them twork as he could.

The committee then retired somewhat disappointed, but also hopeful of eventually securing the return and reinstatement of a number of the old employes of the road. Chief Sargent afterward said that so far as he was constituted.

The men were all standing firmly together and there was no reason why the fight should not be continued. If the men were defeated they could all get bet-ter positions on other roads, and that might be the eventful result.

MATCH MAKING

DISTURBS THE QUIETUDE OF GER-

Probability That Prince Alexander Will Not Marry Princess Victoria A Hint to the Emperor and Press Comment -National Meetings in Ireland for Sunday Proclaimed.

LONDON, April 7.—For the moment Prince Bismarck wins in his contest against the marriage of Prince Alexander to Princess Victoria, but it is feared in Berlin that he will lose in the end with the re-sult of transferring the matter from the Imperial household to the foreign office. It is asserted that the late Emperor William promised Frince Bismarck when the marriage was first spoken of as agreeable to the then Crown Prince and his wife and as a matter of affection on the part of the Princess Victoria and her suitor that the wedding should never take place.

Now that the subject is brought up again with a view of carrying the matter through to the end of making the ex-Ruler of Bulgariaa part of the Royal and Imperial household Prince Bismarck has insisted on a renewal of the Imperial pledge with the object of testing to the fullest extent his influence with the present Emperor in op-position to that of his wife. The Emperor,

innuence with the present Emperor in opposition to that of his wife. The Emperor,
moved by the representations of the Empress, hesitates to forever blight the hopes
of his daughter, while yet he cannot bring
himself to the point of disregarding the
Chancellor's assurance that the marriage
would be a direct insult and a standing
menane to Russia.

Queen Victoria, with her proverbial
doggedness and love of matchmaking, wilt
probably persist in her intention of going
to Berlin for the purpose of reurging the
alliance in spite of the risk of offending
Russia and disrupting the relations between
Prince Bismarck and Emperor Frederick.
The Berliners are disgusted at the increasing signs of petticoat government, and
fervently pray that Prince Bismarck may
be successful in thwarting the plans of
the Empress and her mother. The almost
unanimous opinion is that the match-making mother and grand-mother and their adherents will, in the event of their forcing
the marriage, discover that it is much more
important to the vital interests of Gerthe marriage, discover that it is much more important to the vital interests of Ger-many and the peace 6. Europe that the Chancellor remain at the head of the state affairs than the tax-payers should have an-

The miners of New Castle are balloting The miners of New Castle are balloting upon the question whether or not they shall continue the salaries of commoners Burt and Fenwick, respectively, sitting for the divisions of Morpeth and Wansbeck. Both gentlemen are Gladstonian Liberals and represent almost exclusively mining constituencies. Neitner is possessed of sufficient fortune to maintain himself in Parliament unaided and both are paid salaries raised by assessments levied upon the election. Yesterday's voting stood at the close of the polls slightly in favor of continuing the stipends. The balloting will end today.

At Newmarket yesterday twenty-five persons were tried before a bench of magistrates for hooting the police. The magistrates were unable to agree, and as future conviction seemed impossible, the prisoners were discharged.

A Hint to Emperor Frederick.

A Hint to Emperor Frederick. Bralin, April 7.—The Cologne Gazette's Berlin correspondent recalls the fact that the late Emperor William, when dying, exthe late Emperor William, when dying, ex-horted his successors to preserve the Ger-man regard for Russia and spare the susceptibilities of the Crar. "Thus," the Gazette says, "he expressed his lifelong statesmanlike idea, which during the last few years has been shared by all Germans of political training. This policy must be adhered to in future, even though attended with some sacrifices."

with some sacrifices."

The North German Gazette publishes the The North German Gazette publishes the following: "Great excitement prevails in diplomatic circles in Berlin over the possibility of the speedy resignation of Prince Bismarck because of the proposed marriage of Prince Alexander, of Battenburg and Princess Victoria, of Prussia. Prince Alexander wishes to accompany Queen Victoria to Berlin as a suitor for the hand of the Princess. The bearing of the reports is so serious that they can not be passed over. Until the Bulgarian question shall have been settled by all the Powers, from a political point of view, and on that account the marriage is an impossibility."

the marriage is an impossibility."

The National Zeitung says that the renewed efforts to obtain the consent of the Emperor to the marriage of his daughter, Princess Victoria, to Prince Alexander, of Battenburg, have not been successful. For this reason there are no longer any grounds for a secret conflict between Prince Bis-marck and the Emperor, and, therefore, there is no question whatever of Prin

How a Dying Child Was Saved!

Cicrao, Hamilton Co., Ind., Sept., 19, 1877.-The following is a true account of what your S. S. S. has done for our little daughter, Hazel, now four years old. When 12 months old a now four years old. When it months old a lump appeared on her heel, which slowly grew larger. The family physician thought it was caused by a piece of broken glass or needle, but failed to bring anything to light. The child became feebler all the time, seeming to lose the use of her leg, and finally quit walk-ing entirely. The middle finger and thumb ing entirely. The middle finger and thumb of either hand became enlarged, the fical becoming hard. The hip joints became involved, so that when seventeen months old she could not stand, having jost the use of leg and arm. Partial curvature of the spine also followed. The nervous system was wrecked, muscles contracted, and there was general wasting of fiesh and muscle. At eighteen months of age she was placed under the treatment of a prominent physician of Beston, Mass., but at the end of ten months she had decilned to such a degree that she was in had decilined to such a degree that she was in a dying condition. This was in April, 1985. We took the child away not knowing what we took he child away not knowing what to do. In this dreadful dillemms we were over-persuaded by friends to try "one het-tie" of Swirr's Sracinc, which we did, and before it had all been taken we saw a change for the better in her symptoms. We kept it up, and have done so th this day, and will keep it up, if the Lord wills, for many days keep it up, if the Lord wills, for many days to come, for it has brought our dying Hasel to life, to vigor, to strength and health again. The astien has of her cheeks has changed to a rosy tint. She is able to walk anywhere, her languor and melancholy have passed away, and she is now a blithe, cheerful, happy romping child. Should you wish to increase your testimonials of proof of the virtue of S. S. S. our names and what we have said is but a portion of what we owe to you, should you wish to use them.

Kindly yours.

Why You Feel So weak and exhausted is because your blood is impure. As well expect the sanitary condition of a city to be per-

fect with defiled water and defective sewerage, as to expect such a complicated piece of mechanism as the human frame to be in good order with impure blood circulating even to its minutest veins. Do you know that every drop of your two or three gallons of blood passes through the heart and lungs in about two and a half minutes, and that, on its way, it makes bone and muscle, brain and perve, and all other solids and fluids of the body? The blood is

the great nourisher, or, as the Bible "The Life of the Body. Is it any wonder, then, that if the blood be not pure and perfect in its constituents, you suffer so many indescribable

Aver's Sarsaparilla stands "head and shoulders" above every other Alterative and Blood Medicine. As proof, rea ' these reliable testimonies:

6. C. Brock, of Lowell, Mass., says:
"For the past 25 years I have sold Aper's Saysuparilla. In my comion, the best remedial agencies for the cure of all the diseases arising from impurities of the blood are contained in this medicine."

Eugene I. Hill, M. D., 381 Sixth Ave., New York, says: "As a blood-purifier and general builder-up of the system, I have never found anything to equal Ayer's Sarsaparilla. It gives perfect satisfaction." Ayer's Sarsaparilla proves equally

efficacious in all forms of Scrofula, Boils, Carbuncles, Eczema, Humors, Lumbago, Catarrh, &c.; and is, therefore, the very best Spring and Family Medicine

in use. "It beats all," says Mr. Cutler, of Cutler Brothers & Co., Boston, "how Ayer's Sarsaparilla

does sell." Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Price \$1; six bottles, \$5. Worth \$5 a bottle.

A VIEW OF LOW LIFE.

Not from a Moral Standpoint, but in an Kutirely Physical Sense.

When the pulse beats feebly; when the enermy is gone; when the appetite is weak and sleep uncertain, then the body is in a condisleep uncertain, then the body is in a condi-tion of actual "low life". No maiter what the causes may have been. Nature has given way, and unless her strength is restored disease is certain to take possession of the body. The first thing a doctor does in such a case is to assist Nature. Here are some instances: Prof. Austin First, of Bellevue. New York,

College, says: "The judicious use of alcoholic stimulants is one of the striking cearacteristies of progress to the practice of medicine during the last half century." The well known Prof. Joseph Parrish says:

We know that alcohol will steady the heart, slow the pulse, warm the skin, calm excitement, and we ought to use it."

ment, and we ought to use it."

The celebrated Dr. J. M. Carnwall says: "I am most happy to say, after a very thorough test, that for persons suffering with nervous and general debility or any wasting disease, or for delicate persons or invalids. Duffy's Pure Mait Whisky is the beat tonic and purest stimulant with which I am acquainted."

There is no bigher scientific authorities than these and they seem volumes for this pure and valuable whisky which has become so wonderfully popular. Bewareof all bottled whiskys which may be offered you, except Duffy's. I thas atood the test of time and is absolutely pure. Duffy's Formula is a positive cure for coughs, colds, and of pulmonary troubles.
